ANSWER

The Department of Treasury seems to be coming up with something more substantial than what was proposed. It is believed that there will be some kind of a general budget and the new budget will be submitted to Congress by the end of the year. The new budget will have to be approved by Congress before it can be implemented. This is the reason why the new budget has been delayed so long. The new budget will be submitted to Congress by the end of the year. The new budget will be submitted to Congress by the end of the year.
