Date: 21/12/2024

The Role of Science Exhibitions in Education

Science exhibitions for school students are a medium of access to science and making it interesting. They break the mystique of scientific concepts in simple language and demonstrate their relevance to life. Through science exhibitions, students participate and develop critical thinking and problem-solving skills with a further enhanced appreciation of the scientific method.

Objectives of Magic of Science:

- Analysing how science and technology have affected individuals, cultures, and societies
- Developing a sense of pride in students' talent
- Encouraging students to visualize the future of the nation
- Developing technologies for rural areas
- Popularizing science and technology among the masses
