Report of Group Discussion

Home Economics Department organized group discussion on 26th April 2022. B.A. Part I, II and III students had participated in this discussion and divided into two groups. The subject of group discussion for the group 1 was 'Female Foeticide' and for the group 2 was 'Benefits of Joint and Nuclear Families'. In the discussion of Female Foeticide, group 1 has mentioned that even though the society is literate, there is the thinking that the male is heritage of the family. Also the doctors fall prey to this due to the money. The discussion has reached to the conclusion that Female Foeticide should be stopped and female should take onus of this so that to change the mentality of the society and the family.

In the discussion of 'Benefits of Joint and Nuclear Families', group 2 has agreed that both the families have their own pros and cons. They have also mentioned that the families become nuclear due to the jobs and the businesses. The discussion has reached to the conclusion that the Nuclear families has upper hand with respect to the Joint families. Students had discussed on both the subjects and it has resulted to the satisfactory discussion. Still, there is a need to change the mentality of the society
