Mentor – Mentee Scheme Report

Mahatma Fule Arts, Commerce & Sitaramji Chaudhari Science Mahavidyalaya, ensures the effectiveness of Mentor-Mentee Schemes through careful planning, training, and ongoing evaluation. Regular meetings and feedback sessions are conducted to assess the progress of mentorship relationships and address any issues that may arise.

Regular as well as ad hoc faculty members form the core group of mentors. At present the college has 49 faculties as mentors. Each mentor is entrusted with a batch of 17 to 20 students. Each student is under the close monitoring and guidance of the mentor. The mentor is expected to conduct at least three group level meetings of his group every year. The personal level meeting with the students is also conducted periodically.

All mentors keep a confidential data sheet about their students - mentor's assessment of students - which records a report of mentoring done by the teachers. These reports are periodically evaluated by a team of teachers selected from each department. The mentoring program is monitored by a committee consisting of the Principal, Vice Principal and a group of experienced faculties. The mentors, through periodical interactions with the mentees, identifies the academic, social and psychological needs of the mentees and informs them further about the various support systems available.

Mentors and teachers extend emotional and moral support to students who require special attention. Frequent contact is maintained with the parents of such students and the help of the counsellors are made available to the parents also. Slow learners and lazy learners are identified by the mentors through constant monitoring of the academic performance with the help of the mentor's Report. They are given remedial coaching and counselling. Advanced learners are also identified at different stages. At the time of admission, they are identified on the basis of outstanding track record. The performance in the continuous evaluation process also is tapped to mark the talented. They are then provided with opportunities to enhance their skills.
